ABOUT MEDITERRAPACK

*Connecting Global Markets with
Your Trusted Packaging Partner*

Mediterrapack is a Türkiye-based packaging solutions company specializing in corrugated and paper-based packaging for international markets.

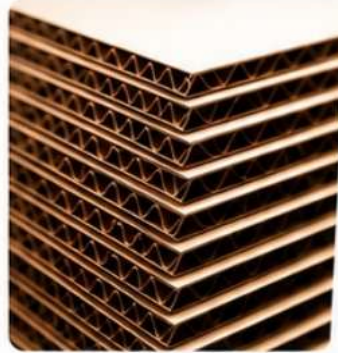

We provide reliable, export-ready packaging products for the food service, retail, e-commerce, logistics, and industrial sectors. Through strong manufacturing partnerships and efficient supply management, we deliver packaging solutions tailored to the needs of our customers worldwide.

Built on trust, transparency, and long-term cooperation, Mediterrapack is committed to delivering sustainable packaging solutions and creating lasting value for its partners.

Packaging Nature Responsibly.

WHY CHOOSE MEDITERRAPACK?

-  Recyclable & Renewable Materials
-  Food Contact Safe Solutions
-  Environmentally Responsible Production
-  Durable & High-Performance Packaging
-  Custom Manufacturing Capabilities
-  Global Supply & Export Experience

CERTIFIED QUALITY & RESPONSIBLE SOURCING

Sustainability & Responsible Packaging

Protecting Products. Respecting Nature

At Mediterrapack, sustainability is at the core of everything we do. We manufacture high-quality corrugated packaging solutions designed to meet modern business needs while reducing environmental impact.

Our packaging is produced using recyclable and renewable raw materials, supporting a circular economy and helping businesses achieve their sustainability goals. Through responsible sourcing and efficient manufacturing processes, we create packaging that is both durable and environmentally conscious.

FOOD CONTACT SAFE

Food safety is a fundamental priority in our production process. Our corrugated packaging solutions are suitable for direct and indirect food contact applications and are designed to preserve product quality throughout storage, transportation, and retail display.

SUSTAINABLE MANUFACTURING

We continuously invest in environmentally responsible production methods that minimize waste, optimize resource efficiency, and reduce carbon emissions. By combining innovation with sustainable practices, we deliver packaging solutions that contribute to a greener future.

RECYCLABLE MATERIALS

Our corrugated packaging is made from 100% recyclable materials, supporting a circular economy and reducing the demand for virgin resources. After use, our packaging can be collected, recycled, and repurposed into new products—helping to conserve natural resources and minimize waste.

PIZZA BOX

Freshly Made. Perfectly Delivered.

Our pizza boxes are designed to keep your pizzas hot, fresh and delicious from oven to doorstep. Manufactured from high-quality corrugated cardboard, they provide excellent strength, thermal insulation and protection for a perfect delivery experience.

FEATURES

STRONG & DURABLE

Manufactured from premium corrugated cardboard for superior stacking strength and transportation protection.

HEAT RETENTION

Designed to help maintain pizza temperature and freshness during delivery and takeaway service.

GREASE RESISTANT

Special food-safe coating helps resist oil and moisture absorption, keeping the box clean and durable.

FOOD CONTACT SAFE

Produced using food-grade materials suitable for direct and indirect food contact applications.

ECO FRIENDLY

Made from recyclable and renewable paper-based materials, supporting sustainable packaging solutions.

VENTILATION DESIGN

Integrated ventilation holes help reduce condensation and preserve crust texture and product quality.
